

XIPbroker 10

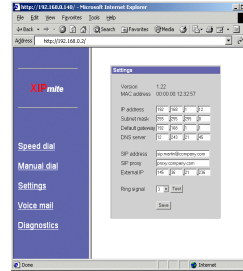

XIPbroker enables set-up of permanent audio connections via an IP network.

XIPbroker is the ideal product for cost saving of leased audio lines in the financial market.

XIPbroker is built upon our own new unique and extremely cost effective platform, making it revolutionary price competitive in the business market.

XIPbroker 10

Web management

XIPbroker establishes a permanent audio connection between two XIPbroker units via an IP network.
